- 
- \* This is a very basic range of materials and students are welcome to bring their own appropriate materials from home, then as the workshops progresses, students can add to their colours and range of materials if they feel the need.
  - \* Students bringing previously owned materials from home will still need this basic range of colours or very similar colours to match this basic range.
  - \* Students may also purchase their materials as a group to reduce expense and then share at the workshop. Only one problem with this is that they may find this frustrating if these students live in different home locations and want to practise and develop some of the painting skills at home.
